Cold Formed Angles and Channels

Nationwide Stainless are one of the UK's largest independent stainless steel stockholders and processors of Cold Formed/Pressed Angles and Channels.

Standard and non-standard sizes can be produced to order, to any size, any length and in any grade with short lead times.

Nationwide Stainless are one of the UK's largest independent Stainless Steel stockholders and processors of cold formed/pressed angles and channels.

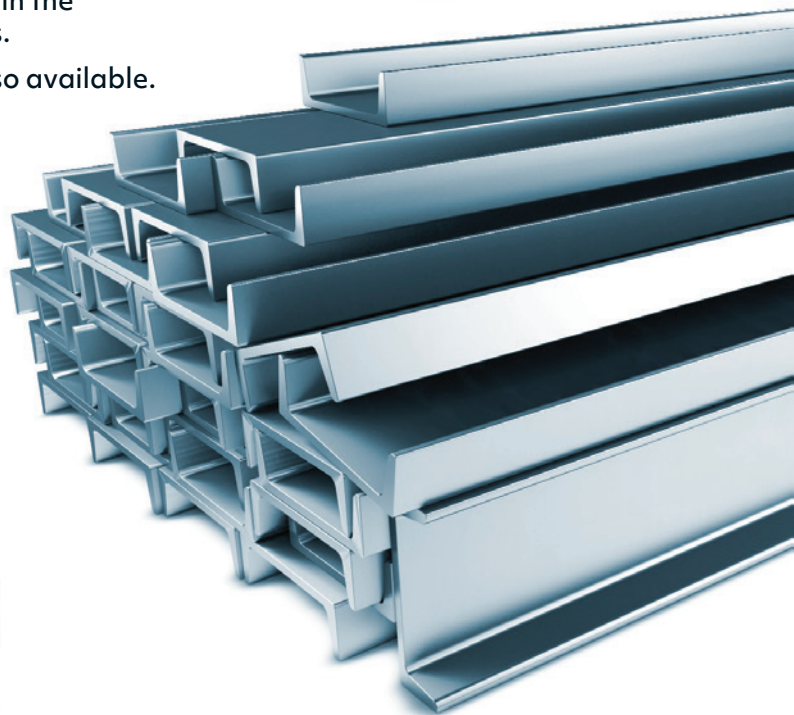

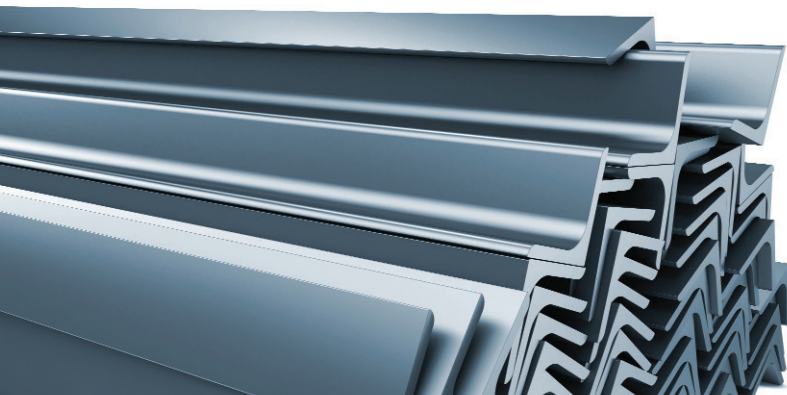

**SHORT
LEAD TIME?**
No problem

- Angles and channels formed on CNC press brakes to standard and non standard sizes.
- Up to 4 metre long and 15mm thick.
- Longer and thicker sections can be achieved by special request.
- Additional holes, slots and profiles can be produced in the angles and channels to your particular requirements.

Hot Rolled and Laser Fusion Welded sections are also available.
