Round Bar – 310 / 310S / 310H for high temperature applications

Nationwide Stainless are one of the UK's largest stock holders and processors of Stainless Steel Round Bar in heat resistant grades 310 / 310S and 321.

Every day, from our Sheffield factory, we dispatch materials of all types – whether stock or processed items working with customers to meet tight delivery schedules.

Nationwide Stainless stock a full range of Round Bar in grade: 310 / 310S / 310H.

With an excellent range of metric and imperial diameters, our stocks are able to cover most requirements.

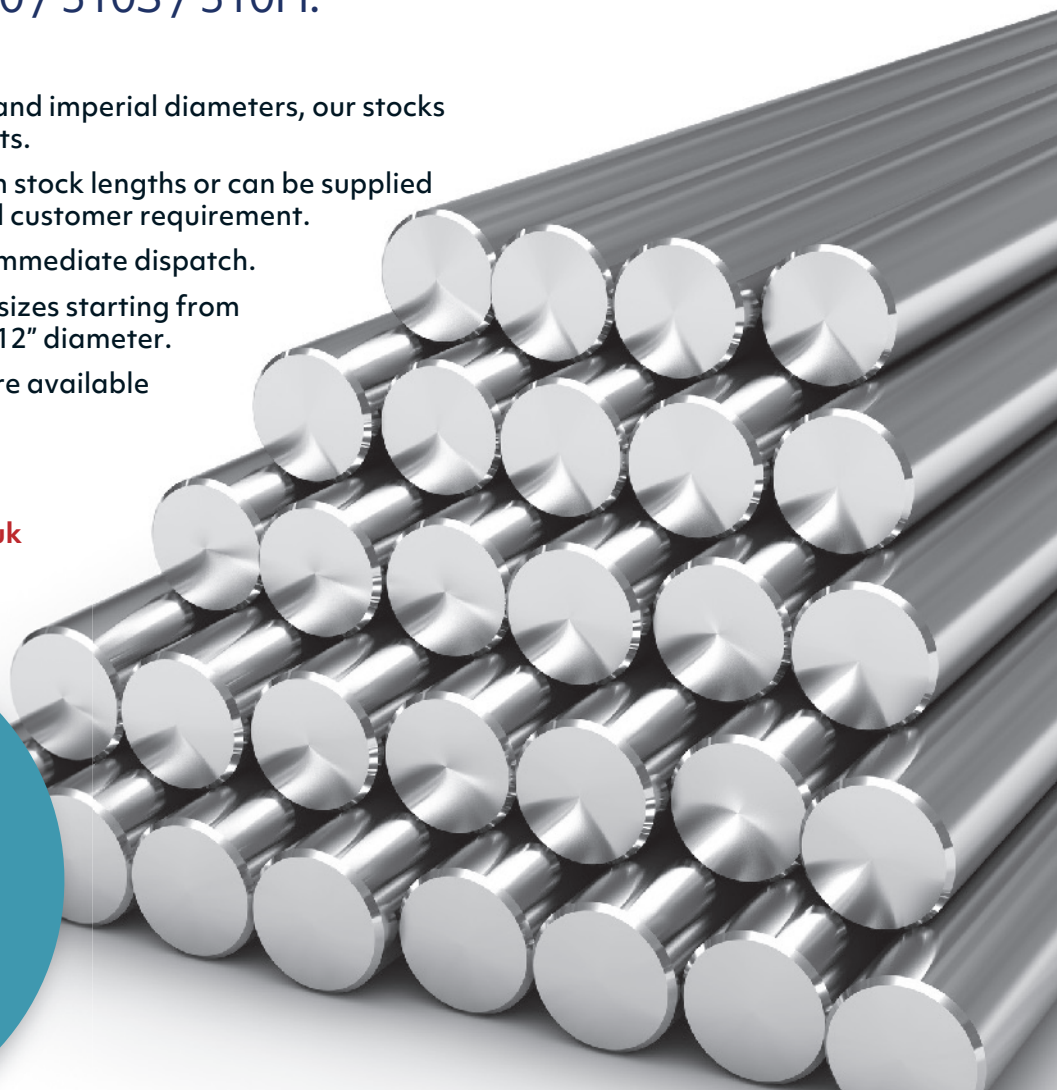

Material is available off the shelf in stock lengths or can be supplied cut to length to suit each individual customer requirement.

- All diameters are available for immediate dispatch.
- Healthy stocks are kept in most sizes starting from 5mm diameter right through to 12" diameter.
- Larger and smaller diameters are available upon request.
