

Plate and Sheet– 310 / 310S / 321 for high temperature applications

Every day, from our Sheffield factory, we dispatch materials of all types – whether stock or processed items working with customers to meet tight delivery schedules.

Nationwide Stainless are one of the UK's largest stockholders and processors of grade 310 / 310S (1.4845) Plate & Sheet and grade 321 (1.4541) Plate & Sheet.

Ask about our
**CUT TO SIZE
SERVICE**

Our in-house CAD technology enables us to offer additional cost efficiencies with parts drawn and nested to best suit our customer requirements.

- Plates and sheets can be cut to customer requirements with additional holes/slots if required.
- Guillotine capacity up to 4 meter long and 15mm thick.
- Parts can be cut by either HD Plasma, Laser, Water Jet or Saw Cut.
- Profiled parts manufactured to order.
